

COLLIES ON THE MOVE

Form Follows Function

A Mini-Seminar Presented By
Patt Caldwell

Hosted by Northern Wisconsin Collie Club following its specialty show

Saturday, November 2, 2013

"The Collie is a lithe, strong, responsive, active dog, carrying no useless timber, standing naturally straight and firm. The deep, moderately wide chest shows strength, the sloping shoulders and well-bent hocks indicate speed and grace..."

The two first statements of our standard speak specifically to structure and gait. Yet, like beautiful, correct expression, if it is not bred and selected for, the Collie can quickly become a mismatched collection of structural parts that render it less than lithe, responsive, or graceful.

Collies on the Move will cover basic information on structure as it relates to gait specific to our Collie. The presentation will include a PowerPoint presentation, handouts, and discussion.

Location & Details

Winnegamie Dog Club Training Center, 2043 Manitowoc Road, Menasha, Wisconsin 54952
Seminar will start approximately 45 minutes after completion of Saturday specialty judging and will run about 2 hours. Relax after the show and enjoy the seminar and good food and conversation with fellow collie people!

Italian dinner is \$10 per person. Seminar without dinner is free.

For more seminar information contact Mary Lee Winnie - dunrobin2@aol.com - (920) 434-1797
